## Parallel Imports/Grey Market Goods

We have recently received three complaints from Importers in Europe and Asia regarding Bondhus products being sold into their territory from an unknown/unauthorized source. We are still trying to trace back these products in order to stop it. Bondhus takes Parallel Importing very seriously.

Importer's do not want to discover someone else shipping Bondhus products into his territory (disrupting his market and stealing his business). Bondhus has zero tolerance for anyone who ships product outside his assigned territory.

We ask our Importers to fully cooperate with us in eliminating Parallel Imports. Please forward any requests to you from people/businesses (from outside your territory), looking to source Bondhus. Also, if you have any information regarding companies you suspect of grey marketing Bondhus product, please let me know.

## New Metric Nut Driver Set

Bondhus now offers the Metric Nut Driver set in a 7 piece, 6mm - 13mm option (Item No. 48496). Based on a request from several Importers we have expanded our Metric Nut Driver program to include a set which includes the 13mm nut driver. In some markets the 13mm nut driver is more popular than the 12mm. To satisfy this market need we took the current metric set (48492) and replaced the 12mm nut driver with the 13mm (creating an additional set).

Your Importer Net Price on this new set is the SAME as on the current 7 piece Metric Nut Driver set (48492).

A new sales flyer on the Nut Driver program is now available (see attached). This flyer is prepared in InDesign and is available to you as a download. Importers can easily edit the file to meet local requirements. Please contact Diana Maxwell at [dmaxwell@bondhus.com](mailto:dmaxwell@bondhus.com) for downloading instructions.

**Item No. 48496 - 7 Pcs**  
6, 7, 8, 9, 10, 11, 13mm

## ProHold® Socket Bits

*Revolutionary bit backed by the quality only Bondhus can provide.*

Each socket bit utilizes an innovative design that allows the bit to flex instead of break when high torque levels are applied. This innovative design, coupled with Bondhus' exclusive Protanium® **AMERICAN** steel, makes each bit up to 20% stronger than competitor bits. These bits are designed to deliver ultra high performance in even the toughest work environments.

These **ProHold® Socket Bits** are available as "bit only" for use in any 6 point socket, *without the need* for set screws or roll pins. All Bondhus socket bits carry a lifetime warranty and feature Bondhus' proprietary ProGuard™ finish, which offers five times more corrosion protection when compared to competitor finishes. Available with or without sockets in standard and metric sizes, individually or in sets, 2" or 6" lengths.

## 350mm Long T-Handles

Bondhus Corporation has expanded its' world class T-handle line to include 350mm straight hex tip tools. Only Bondhus T's offer strength, comfort and enhanced grip by welding an ergonomically designed, heavy duty handle to the blade, then dipping it in cushioning plastic, to reduce fatigue.

The offering includes:

Item #	Size	Qty/Pkg
16456	3mm	1
16460	4mm	1
16464	5mm	1
16468	6mm	1
16472	8mm	1

## New T-handles

Bondhus has added two new 6 inch, straight Hex T-handles to our offering:

1. 7mm - Item number **15270**
2. 9mm - Item number **15274**

**Bondhus Corporation**  
 1400 E Broadway • PO Box 660
